

# The Future of Water in the Middle Rio Grande: A Science Exhibition

Wednesday, September 25  
Open House from 4:00pm to 7:00pm

1380 A&M Circle, El Paso  
Texas A&M AgriLife Research Center

*Refreshments will be provided*

**Presented by: Researchers from UTEP, Texas A&M and Texas Water Resources Institute**

Visit Exhibits to learn more about ongoing research  
See research results for future water supplies and improved water management

Ask questions.  
Talk with research experts.

Open to the Public  
Come to learn more about our water future.

## Exhibits :

Elephant Butte Reservoir - An Unreliable Water Source in the Future

Ground Water Depletion

Per Capita Urban Water Use and Future Costs

Conjunctive Management of Groundwater and Surface Water

Desalination as an Alternative Source for the Future

Try Our Interactive Model to Project Future Water Supply and Demand

Diversifying the Water Portfolio for Agriculture

Managing Salinity
