

Water Well Screening Event

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

The “Well Informed” TWON program is an educational program that gives well owners the opportunity to have their well water samples screened for common contaminants including fecal coliform, bacteria, nitrates and high salinity. The screening of the water samples is followed by a 1-hour explanation of the results, water well protection practices and focuses on wellhead protection and recommendations for remediating well contamination.

Well Informed Screening - May 3 & 7

Terrell County Extension Office, Courthouse Square, Sanderson, (432) 345-2291

- Pick up sample containers prior to May 3 @ Extension office
- Sample drop-off 8:30–10:00 a.m. May 3 @ Extension office

NETWORK

Funding for the Texas Well Owner Network is through a Clean Water Act nonpoint source grant provided by the Texas State Soil and Water Conservation Board and the U.S. Environmental Protection Agency. The project is managed by the Texas Water Resources Institute, part of Texas A&M AgriLife Research, AgriLife Extension and the College of Agriculture and Life Sciences at Texas A&M University.
