

Water Well Owners Educational Event

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

Friday, June 18, 2021
8:30 a.m. - 12:30 p.m.

Prairielands Groundwater
Conservation District Office

208 Kimberly Dr.
Cleburne, TX

TEXAS WELL OWNER NETWORK PROGRAM

The Texas Well Owner Network (TWON) program is a free, educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

BRING YOUR WELL WATER SAMPLES!

Well owners may bring water samples the day prior to the event (Thursday, June 17) to be screened for nitrate-nitrogen, total dissolved solids (TDS) and *E. coli* bacteria for \$10. Pick up approved sample containers with instructions at the Prairieland Groundwater Conservation District Office, 208 Kimberly Dr. in Cleburne; Ellis County AgriLife Extension office, 701 S. IH 35 East in Waxahachie; Johnson County AgriLife Extension office, 109 W. Chambers St. in Cleburne; Somervell County AgriLife Extension office, 1405 Texas Dr. in Glen Rose; or Hill County AgriLife Extension office, 126 South Covington St. in Hillsboro.

Samples and \$10/sample are due at 8:30 a.m. on Thursday, June 17.

Pre-register for the workshop at
